

Custom-Sized Magic Gift Bag

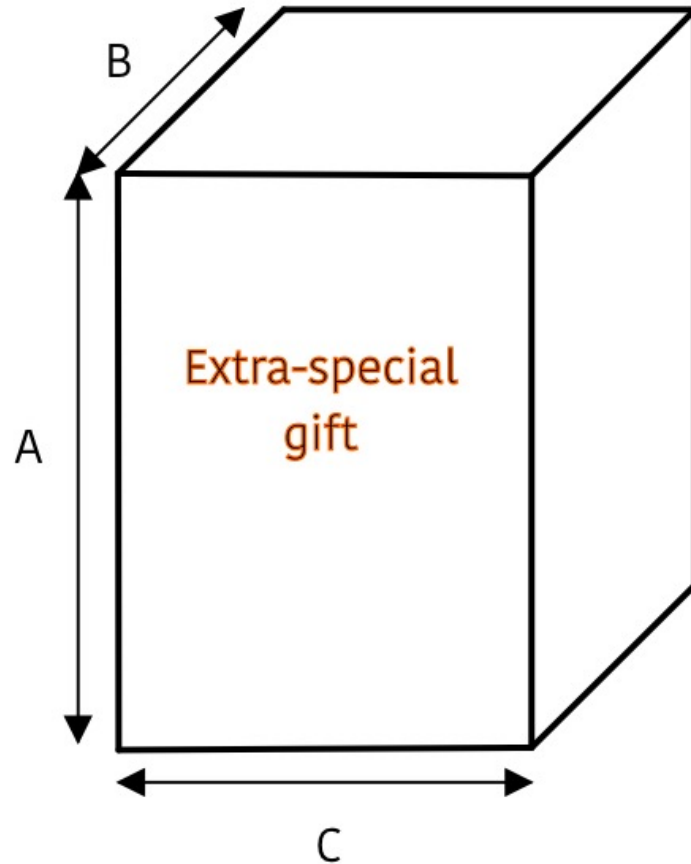

All measurements are in inches

Fill in the measurements:

A = _____

B = _____

C = _____

To make the magic gift bag, you need three numbers - length of fabric piece, width of fabric piece and amount of "magic fold". Use the formulas below to figure them out.

Full instructions for the Magic Gift Bag are at epidastudio.com

$$\text{Length} = 2 \times (A + 1/2B + 4)$$

To calculate this: divide "B" by 2 then add "A" and 4". Take this total and multiply by 2

$$\text{Width} = C + B + 2$$

$$\text{Fold amount} = 1/2 B + 1/2$$

To calculate this: divide "B" by 2 then add 1/2
